**Moderate Learning Difficulties, General Learning Difficulties, Intellectual Disability, what does this mean and are they the same? — Educational Assessment and Support**

We do know that some are passed on within families; others are delayed in line with cognitive development; and some are an acquired or environmental problem, eg speech sounds distorted by a dummy. In this way an initial delay in speech and language, or an initial speech pattern, can become a disorder which can cause difficulties in learning. If this is the case for your child, ask the therapist who else needs to be involved, the expected procedures, timescales and what you can do to help.
