Likewise, how will you use multimedia for effective teaching? Students are eager to begin class and often arrive early at the computer lab, logging on to the Internet and beginning research on their own. A report is data-rich, exhaustive, and informative—but not very engaging. Know Your Audience Understand what the audience wants to get out of the presentation.

### The impact of using multimedia on students' academic achievement in the College of Education at King Saud University

In the first column, decide whether you want to motivate, convince, or call to action. Try recording yourself giving the presentation a few times and watching it back.

### 63 Essential Business Presentation Phrases

Yeah, digital learning is quite widespread lately, so teachers are using different platforms to hold a virtual classroom. When he finished, the response was instantaneous: a sustained standing ovation.

### How to Give a Killer Presentation

All of these contribute to student learning and help to explain the improved student learning that is often associated with IT-assisted PBL. They allow you to present your case through an additional communication channel with your audience.
