Uncle Cam (1984 edition)

In the intervening 59 years he has packed several lifetimes of achievements including 1 learning an Indian language, translating the New Testament into it and teaching the Indians to read, and 2 starting the Summer Institute of Linguistics and the Wycliffe Bible Translators, the largest linguistic organization in the world whose more than 2000 members have reduced to writing more than 500 languages in 23 countries and translated portions of the Bible into most of them. Pages are intact and not marred by notes or highlighting.
