Filesize: 12.42 MB

2019 International Research Association for Talent Development and Excellence (IRATDE)

It brought me to the time, when my son was 1. For instance, a child might be gifted in singing and another in listening. While supporting the effort to promote rigorous content standards for all learners, the National Association for Gifted Children also calls for attention to the specific needs of gifted learners in the implementation of the national content standards and their corresponding assessments.

EDU 300

Scholars and teachers also recognize that talent and paths to excellence differ depending on the domain and that understanding what is necessary for development will enable educators and parents to identify more talented children and ensure they have the opportunities they need to develop their potential to the fullest degree possible.
