### Naked Art

She instead focused on magical realism and alchemy and used autobiographical detail and symbolism as the subjects of her paintings. Continuing through the decade women continued to question the meaning of existence through form and material.

### Landscape

The immense range of her art - portraits, landscapes, glass paintings and decorative work - reveal Carrington as a significant artist of her period.

### Art Prints

Titled The Celtic Surrealist, it was curated by Sean Kissane and examined Carrington's Irish background to illuminate many cultural, political and mythological themes present in her work. IMO Carrington close relationship with Strachey replaces her close personal relationship with her father who passed away.

### Nude Woman Paintings

Term applied to a style of painting- 1950 - 1952. Shortly after, she met and was influenced by Tanguy, whom she later married in the United States.
