Enquiries within a 50-mile radius of the incident proved a waste of time with not one farmer reporting the loss of livestock — so where did they come from? This approach is held to have continued in the Middle Ages, as metaphysical aspects, substances, physical states, and material processes are supposed to have been used as metaphors for entities, spiritual states, and, ultimately, transformation. I don't normally read books about magic, be it black or white, and this one I would never have known about if it hadn't been written by Andrew Collins, an author of a few books on ancient mysteries I have read over the years.
