**Disclaimer:** This article is not intended to provide legal or financial advice. While textbook cases are clear, in real life the distinction between legal and illegal use of information can be difficult. But an investment banker or lawyer helping a firm prepare a merger would clearly be breaking the law by trading on the information.

## Insider Trading

Bitcoin took a major step in 2017, when it was granted the same. In these cases, insiders in the United States are required to file a with the U. However, it appeared to make a comeback in 2019, doubling in value throughout the course of the year and ultimately.

Further, it addresses other stock-related infractions and international law issues such as jurisdiction and international cooperation. But despite its increasingly prevalent use among businesses and consumers, blockchain is still a nascent technology when it comes to regulation. Siegel notes that much insider trading is curbed by rules restricting trading by insiders.
