List of million

Among the older population, the group aged 85+ is growing especially fast and is projected to surpass half a billion in the next 80 years.

Book Reviews: Tim Dyson, Robert Cassen, and Leela (eds.), Twenty

And countries with relatively sizable portions of the population concentrated in the high-work and high-savings part of the life cycle need policies to realize the potential benefits of favorable demographics. According to the 2011 census, there were 46 , with , and having populations over 10 million. In addition, India can count on a number of strengths as it strives to transform itself into a knowledge-based economy-availability of skilled human capital, a democratic system, widespread use of English, macroeconomic stability, a dynamic private sector, institutions of a free market economy; a local market that is one of the largest in the world; a well-developed financial sector; and a broad and diversified science and technology infrastructure, and global niches in IT.

Population and Climate Change on JSTOR

It is a home to 17. This leaves them more vulnerable and more likely to exploit new resources in an unsustainable way, leading to a vicious cycle of poverty and degradation see Box.

Book Reviews: Tim Dyson, Robert Cassen, and Leela (eds.), Twenty

Introduction According to the United Nation UN World Population Prospects 2008 Revision, the world population has reached 6.

Children's environmental health in the twenty

Recent evidence indicates continued high levels of unmet need for family planning and other reproductive health services. Journal Information The

Proceedings journal contains papers that have been read before the members of the American Philosophical Society at meetings held in April and November. Rapid population growth has a negative impact on human development, provision of basic services and poverty eradication; these effects are magnified and become more urgent in the context of climate change.

Book Reviews: Tim Dyson, Robert Cassen, and Leela (eds.), Twenty

Proceedings articles generally are 30 pages in length or less, although exceptions are made. India has made tremendous strides in its economic and social development in the past two decades. About 43 percent of the urban population of India lives in these cities.
