Office of Foreign Assets Control

When a truck gets sold for the second time, potential customers may have questions about how this vehicle was used. They continue to invest in the development and introduction of new vehicle lines with advanced technologies, and dealers retain responsibility for the customer experience. The authors would like to issue special thanks to the following advisers and contributors whose insight and expertise were invaluable for the creation of this paper: Andrew Adams, Andrew Blau, Matthew Budman, Jonathan Copulsky, Mark Cottelear, Craig Giffi, John Hagel, Tim Hanley, Julia Kirby, Michelle Drew Rodriguez, and Steve Schmitt.

Air Travel Consumer Reports

Automotive suppliers will have to adjust as OEMs transform

COVID

Conclusions In the four futures of the mobility ecosystem, sources of value shift profoundly.

Official Guide to Government Information and Services

And consumers relentlessly demand that automakers integrate the latest technologies. Integrated information systems can enable effective intermodal transportation.

Official Guide to Government Information and Services

Global automotive manufacturers OEMs face momentous and difficult decisions. In the process of development, we managed to create a complete set of flexible services for launching the new system on the market. Here, passengers more heavily value the convenience of point-to-point transportation created through ridesharing and carsharing, saving them the hassle of navigating traffic and finding parking spaces.

COVID

Heavy trucking businesses should consider adding a fleet of small vehicles to conquer a bigger piece of the market.

COVID

At the end of 2016, Amazon first delivered an order to its customer using a drone. Technology companies already have access to passenger data and seek to capture this value, but they will likely face challenges from entrants with new business models. Over time, the efficiencies of greater asset utilization offset the higher costs associated with employing a driver.

Air Travel Complaints

They might even invest more in their vehicles as a new era of customization dawns and it becomes appealing to use vehicles tailored for specific occasions and circumstances.
