However, it is facing increasing competition from China both in economic terms and in terms of its influence on business practices outside Asia; the number of English-language books and articles attempting to understand the Japanese business system has declined sharply in recent years. That decision was met with a flood of complaints and protests to the local government offices, criticizing the decision as risky, according to the. A few of the more interesting findings must suffice in a short review.

JAR publishes substantive, peer-reviewed research articles and book reviews in all subfields of anthropology, totaling approximately six hundred pages of text annually. And they are increasingly outnumbered. This, plus the worldwide recession of the late 2000s, has brought about renewed stability but also renewed conservatism in the expatriate staffing of Japanese MNCs.
