Cognitive psychology and its implications : Anderson, John R. (John Robert), 1947

Instant Access: There is NO WAITING TIME for any product available on the website. Due to its ubiquity in everyday life, visual search has been extensively studied in the laboratory for decades even if laboratory tasks are unable to capture the full complexity of real-world visual search tasks. We anticipate submissions involving studies of visual search behavior in applied situations as well as general laboratory search tasks to further our understanding of visual search behavior in real world situations.
