## Piero della Francesca Paintings, Drawings & Artwork

Piero presents, in that large triangular form, these two opposing motions of the self—being energetically awake, with vivid awareness of and interest in persons and objects, and wanting to be listless, weary, bored with it all. True lordliness, the lordliness of art, has humility as its source. And after a fairly recent re-discovery in the last few decades, Piero della Francesca has earned a place in the roll call of famous artists.

## Piero della Francesca frescoes

After Constantine's victory, his mother Helena travels to Jerusalem to recover the miraculous wood. There is damage to some of the Frescoes, but this is to be expected as the whole church has suffered over the centuries, even being deconsecrated for a while.

## Restoration of the fresco cycle

The presbytery area is from the 12th century, while the rest is from the 11th century.

## Arezzo

Set on three floors, there is an elevator which makes it easy to view even the topmost floor. I guess it was like the invention of tv in the 19th century! From the same epoch is the hexagonal baptismal font, with panels of the Histories of St. One man stabs another gruesomely in the throat.

## The Dream of Constantine by Piero della Francesca

Here is a humble example of how the world from which we all come, is in us.

## THIS and THAT: Piero della Francesca in Arezzo

Is she proud or modest? Science is still evident in his art, however, from the way in which he meticulously put together his compositions. Without a doubt, what is most striking about his work is the incredible mathematical mind behind the precision of the perspective created by the use of geometrical equations and the number of symbols from the motif on the tent to the inverted colors on the angels.

## **Piero della Francesca Artworks & Famous Paintings**

The old style of a solid gold background was specifically requested by the group who had commissioned the piece and deviates from his style of a humanistic stage for his images, however, he manages to give depth and perspective to the image by creating a realistic space under her cape. The final Poco allegro conflates two of Piero's battle paintings, one in which Constantine, cross in hand, defeats Maxentius, the other depicting the defeat of the army of Chosroes, the Persian king who had stolen the Cross from Jerusalem. The Legend of the True Cross The legend starts with the story of how Adam, on his deathbed, sends his son Seth to the Archangel Michael, who gives him some seedlings from the tree of original sin to be placed in his father's mouth at the moment of his death.

### **IC PIERO DELLA FRANCESCA**

In 1454, the artist signed a contract, which was for the Polyptych of St Augustine in Sant'Agostino church in Sansepolcro. The edifice was numerous times restored and renovated; the interior has a court from the 16th century, a stone statue portraying a Madonna with Child 1339 , frescoes, busts of illustrious Aretines, two paintings by Giorgio Vasari.
