## U.S. History, Franklin Roosevelt and the New Deal, 1932

We are fighting to save a great and precious form of government for ourselves and for the world.

### New Deal

Roosevelt's pledge of experimentation was also designed to prepare the country for change if he were elected and his countrymen were certainly ready for change. FDR created the modern American state, offering a pragmatic, humane alternative to the radical individualism and anti-statism that had long hindered the fulfillment of the American promise of equality and opportunity. He took his ideas from two now forgotten American economic writers, William Trufant Foster and Waddill Catchings, whose irreverent critique of Say's Law in the 1920's had demonstrated the perils of oversaving, concluding with the brisk injunction: "When business begins to look rotten, more public spending."

## U.S. History, Franklin Roosevelt and the New Deal, 1932

On Day 1 of his presidency March 4, 1933 , the first of the hundred days, he told Woodin that he wanted an emergency banking bill ready for Congress in under 5 days. He warned in his first Inaugural Address against the fear of fear, and he seemed fearless himself.

### The Hundred Days, What Does It All Mean?

The decade was perhaps the only one in the twentieth century in which middle-class Americans identified with industrial workers as fellow consumers. The United States today is a more complex society, facing a different kind of crisis than in 1933 — a crisis that might actually be intensified by following FDR's path.

### The Hundred Days and Beyond: What Did the New Deal Accomplish?

The act also provided that the hours worked would drop to 40 and the wage would incrementally rise to 40 cents. He was also a disastrous administrator.

### **The Hundred Days, What Does It All Mean?**

The massive increase in consumer spending would result in increased production of consumer goods which would result in higher employment - the cycle would be self-perpetuating and the depression would be over within sixty days. In 1950, he lost his seat to the conservative Democrat George Smathers, who campaigned against him by calling him Red Pepper.
