Looking after your rabbits in hot weather

Penelope has given birth to another liter of kits. Sure enough, he didn't have a doe and a buck — he had two bucks! Dwyer, Director, MSU Extension, East Lansing, MI 48824. Rabbits can be wonderful pets, so it's no surprise that some people want more than one.

How to Care for a Pet Rabbit

It is important, if rabbits are housed solely outside, that there be at least three of the four sides of their housing protected from the outside elements. Rabbits are designed to not only survive, but thrive in cold weather. Storage cube panels can be attached to the bottoms of baby gates with zip ties if the slats are too far apart.

Looking after your rabbits in hot weather

You can feed them lawn trimmings and weeds. Also important to know is that bunnies are more susceptible to heat stroke from temperatures greater than 85 degrees F.

Rabbit Farming: Rabbit Production Business For Beginners

I feed my rabbits commercial feed and whatever else I can find.
