## Review: An American Dilemma: Administration of the Indian Estate under the Dawes Act and Amendments on JSTOR

In Florida, where the terrain and climate were unfavorable for military operations, the army had a much more difficult time finding, let alone surprising, Seminole settlements and so resorted to tactics such as seizing Seminoles during peace negotiations and sending them to prisons.

## Chapter Eight: The Age of Dispossession

I would like to focus on two problems with the Oneida-Sherrill opinion as written by Ruth Bader Ginsburg. Ethnic cleansing is considered part of genocide.

## Women's Employment, 1865

The Comanches, for example, had a population of perhaps 40,000 in the mid-1700s. The missionaries had a poor understanding of the causes of the diseases that afflicted their charges, and medically there was little they could do for them. Still, even if up to 90 percent of the reduction in Indian population was the result of disease, that leaves a sizable death toll caused by mistreatment and violence.

## The dispossession of the American Indian, 1887

The National Anthropological Archives has placed pictures like , and many others, online. More than 300 Indians died. I am simply trying to educate you at this point.

## AISC: American Indian Culture and Research Journal

Direct killing was a significant factor and may have explained the majority of deaths for some nations, such as the Yukis and Yanas, but overall more people died from disease and malnutrition as they were subjected to coerced labor, land loss, destruction of game, and reservation confinement. So is generosity a cultural weakness? Little evidence is available for the death toll for the first few years of Spanish colonization.
