## Labor Productivity and Costs Home Page (LPC)

Tapping into this otherwise unreach demand greatly expanded the number of revenue passenger miles traversed during the 2002—07 period, when code-share flights enabled rapid output growth. This indicates that workers are working fewer hours on average. After growing from 2007 to 2013, labor productivity in urban transit systems fell for 2 consecutive years.

### Productivity statistics

Since 1995, productivity in the United States has grown substantially faster than in other advanced industrial countries. Then, the six equations in 15.
