## University Library Practices in Developing Countries by Ahmad (1985)

The original article can be seen here: 10. These four categories detailed the contents represented in the book, and more importantly, they appeal to readers to read along and enjoy the piece. There is a trend towards automation of cataloguing services.

**Library and Information Science in Developing Countries: Contemporary Issues: 9781613503355: Library & Information Science Books**

Other issues covered include: need for teaching information ethics, information ethics workshops and conferences that have taken place and proposed curriculum for information ethics, and concludes by providing suggestions for further research.

**Cataloguing practice in university libraries A comparison of three developing countries (Pakistan, Malaysia, Saudi Arabia), Library Review**

This book is part of the Advances in Library and Information Science series collection.

Filesize: 66.71 MB

### **University Library Practices in Developing Countries by Ahmad (1985)**

The analysis of the hypotheses tests showed no significant difference in subject background and current perception of students who chose and those who did not choose LIS as a first choice. He has guided ten M. He has written and published articles mostly in internationally reputable, refereed journals, together with chapters in books.

### **Cataloguing practice in university libraries A comparison of three developing countries (Pakistan, Malaysia, Saudi Arabia), Asian Libraries**

The analysis in this chapter covers the number of articles, authorship pattern, forms of document cited, et cetera.
