## Management of the Service Life of a Nuclear Power Plant

There would likely be a minimal increase in the vertical hydraulic conductivity associated with the heating effect on the rock mass. Draft: OSTS PE1S 9-17 December 2007 National Outstanding Natural Areas: Areas of public land that are either Congressionally or administratively designated on the basis of their exceptional, rare, or unusually natural characteristics. PRA risk estimates are often heavily dependent on assumptions in the PRA model.

February 22, 2012 The Department's Bonneville Power Administration BPA proposed upgrades to the Pacific Direct Current Intertie, an electrical superhighway between the Northwest and Southern California, which will increase its capacity from 3,100 to 3,220 megawatts, avoid outages and strengthen it against weather and other threats. The accuracy of the methods was done by using geological reference materials.
