Gastrointestinal Imaging (Radcases)

Shortness of breath and cyanosis in a 32-year-old man.

Cardiac Imaging Basics

The patient has had another surgical procedure, implantation of a device in the thoracic aorta.

Gastrointestinal Imaging on Apple Books

Learn your cases, diagnose with confidence and pass your exams.

Radiology

RadCases also helps you identify the correct differential diagnosis for each case - including the most critical. The overall construction of the book is very good with high-quality paper and binding. Each case begins with the clinical presentation on the right-hand page; simply turn the page for imaging findings, differential diagnoses, the definitive diagnosis, essential facts, and more.

Gastrointestinal Imaging (Radcases)

Gaurang Vrindavan Shah, MD, is Associate Professor, Radiology, Department of Radiology, University of Michigan Health System, Ann Arbor, Michigan.

Thieme RadCases

A 35-year-old man presents with tachycardia and congestive heart failure. Shortness of breath and chest pain in a 65-year-old man with a history of cigarette smoking Case 016. A 31-year old man presents with a history of an unknown type of congenital heart disease.

User namePasswordSign in Forgot your password? A 70-year-old woman with suspected coronary artery disease has an unusual finding on coronary artery computed tomography angiography CTA. The important structures and events in cardiac electrical activity and the usual vascular supply to these structures are described. Murmur in a 38-year-old man with a history of ventricular septal defect VSD repaired in infancy.
