Health Care Reform: Learning from International Experience, Nursing Management

That meant it regulated health insurance premiums. Though, in practice, this fund has been used for other things, the concept seems sound. And yet, in the end, our hardest task may be that of accepting death as an unavoidable part of the human condition.

Comparative Effectiveness in Health Care Reform: Lessons from Abroad

The second revolved around whether the prevailing and flawed system of fee-for-service reimbursement should be replaced by approaches that pay providers based on their performance in meeting the overall health needs of the patients they serve. Such a situation would require careful allocation of emergency funding before the crisis.

Creating a better health system: lessons from Singapore

The future belongs to the young, who bring new life and vitality to the human species. Available from The Migraine Trust, 45 Great Ormond Street, London, WC1N 3HZ.

Why We Need Health Care Reform in the US

Some 25 percent of the population has a living will, over a million people a year die in the care of hospice, and medical schools now work hard to foster more caring physicians trained to communicate better with patients.

Why We Need Health Care Reform in the US

If you are unlucky enough to need hospital care that results in a very large bill, there is a reinsurance pool known as that provides basic health care in subsidised wards.

State of Health Ser.: Health Care Reform : Learning from International Experience by P. Hammersley (1997, Trade Paperback) for sale online

For the health care system truly to embrace the potential for change, physicians and hospitals must get to the point where they realize that telemedicine is not an inferior substitute for face-to-face care but rather simply a different technology to use in delivering it. According to the system adopted by PROGNOS, health insurance expenditures by 2030 will rise from their current level of 13.
