## The National Arts Education Archive

Work in a technologically advanced, diverse and team-based shop environment.

## Basic Powder Metallurgy Short Course

These skills that are developed by the students are the skill sets that will make them highly employable in jobs that are yet to be created in the future. Study Abroad Opportunities The International Programs staff continually seeks opportunities for students to travel abroad for educational experiences that may be offered in association with program courses.

## Welding Program

You will apply the theoretical concepts explained in the class in the practical projects to fabricate structural and plate components. Packing in may need to be changed to allow column plumb to be adjusted.

## Construction

Other positions might include Construction Trades Welder, Ironworker Trades Welder, Millwright, Sheetmetal Trades Welder, and Pipe Trades Welder.

## Metal Fabrication Technical Diploma

Other skills that can be incorporated into student designs are basic casting and stone setting with a bezel.
