How to Read Medieval Handwriting (Paleography)

Pfaff, Medieval Latin Liturgy, a Select Bibliography, Main, Z 7813. Evaluates critical editions and secondary works.

Medieval literature

In the Treatise of the Bird, a group of birds fly on a long journey in search of truth over nine mountain ranges, each a dangerous and a tempting resting place; in the second, the narrator, consulting Hayy, a sage, makes a cosmic journey from west to east, ending in a vision of God Avicenna 1980. The Jewish philosopher Philo is the most important figure in the development of this kind of philosophical allegorization, though his influence is accepted to be greater on Christian than Jewish thinkers, most significantly on Augustine.

Meaningful Symbols

S28 Farrar, Bibliography of English Translations from Medieval Sources, Main, Z 6517. A cosmic hum, it continues to resonate in all living beings to this very day.
