In the wake of the Reformation the Orthodox clergy adopted a new strategy, starting to appropriate certain Protestant arguments against the Catholics, and vice versa. However, increased influence of Enlightenment ideas resulted in a significant shift in imperial policy, beginning around the time of the rule of. It is based on four 'i's--ideas, interests, institutions, and illusions. For instance, as of the 1850s and 1860s the St Petersburg Academy had collections, series, reviews, and specialized journals brought from Germany, Britain, France, and Italy, including the *Journal des Églises réformées*, the *Allgemeine Kirchenzeitung*, and so on. The empire of the tsars became ever more vulnerable until it was shattered by the turmoil of war and revolution.

Russia

Differences between peoples are thus ascribed to differences in social development. Oddly perhaps, many of these small formerly tribal groupings owed whatever sense of protean national identity they now possessed to the Soviet era, and yet now in the late twentieth century they had to find their own national stories, just as many states a century or two earlier had done.

The question of Soviet national identity was not so much answered by the research put forth by these three censuses, but by redefining ethnicities and in some cases completely reconstructing territories for ethnic groups. These difficulties convinced the Soviet intelligentsia to abandon state-building and the notion of a federation; by the end of the 1930s, republics were under the full control of the central government.
