Abortion in Northern Ireland: Has the Rubicon Been Crossed?

Research develops the skills of staff in our universities, businesses and health and social care.

key policy drivers in health and social care collaboration

Most Medicaid recipi- Medicare-covered employment for at least ents are children, the elderly, blind, disabled, 10 years. Scotland ran a deficit and was propped up by the UK exchequer.

Nursing assessment and care of children with atopic eczema

One of the key disadvantages of the model, how- THE UNITED KINGDOM ever, is the apparent inequality of the distri- bution of health care resources.

Is Bevan's NHS under threat?

Other aspects of the upsurge in workplace activism were less controversial and all categories of staff were active in lobbying central government for better funding. It could be argued that this evidences the fact that when ensuring patient safety and appropriate standards for care the normal mechanism of healthcare regulation are far more suitable than the criminal law.

History of the National Health Service

Lady Hale went further, outlining the practical complications involved in Northern Irish women travelling to Great Britain to access abortion services in the case of fatal foetal abnormality: Travelling to Great Britain is even more difficult in such cases, as the problem is often detected

comparatively late in the pregnancy, at 18—20 weeks, which leaves very little time to make the arrangements and there may be no counselling offered on what the options are. Method An audit of patient electronic medical records was conducted using EMIS Primary Care System Practice edition. North Sea oil and gas in Aberdeen e.

Who regulates health and social care services in Northern Ireland?

They are written by UK doctors and based on research evidence, UK and European Guidelines.
