OECD Territorial Reviews: Norway

It contains a large selection of timely statistical indicators.

OECD Territorial Review of Peru

The Territorial Review of Norway is integrated into a wider programme of national territorial reviews undertaken by the OECD Territorial Development Committee. The need for strategic visions and overall infrastructural planning in metro-regions, suggests some need for a relatively autonomous public authority at the appropriate geographical level. Under the direction and guidance of member governments, it also researches social changes or evolving patterns in trade, environment, education, agriculture, technology, taxation, and other areas.
