One is to use keypoint-based features, such as SIFT, to decrease the size of the feature set. In our future work, we will further extend the case study to different regions and different types of restaurants to verify if similar trend exists in the food service industry in general. The Defense Ministry declared that it condemned the deaths, as did the National Assembly in a rare, unanimous resolution.

Administration: Recordkeeping on prisoners was inadequate, and authorities did not take steps to improve it. Provisional and temporary judges, who legally have the same rights and authorities as permanent judges, allegedly were subject to political influence from the Ministry of Interior, Justice, and Peace and the attorney general to make pro-government determinations. According to the 2015 Nigeria Education Data Survey, attendance rates in primary schools increased to 68 percent nationwide, with school-age boys continuing to be somewhat more likely than girls to attend primary school.
