NYS Higher Education Services Corporation

The topics of this course will be the same as the regular Earth Science course but they will be explored in greater depth and at a faster pace. Topics include Earth Systems and Resources, The Living World, Population, Land and Water Use, Energy Resources and Consumption, Pollution, and Global Change. Students that are successful in the course and pass the final exam will be eligible for college credit through SUNY Oneonta.

Student Support Services / Regents Science Courses

Class is scheduled for six periods per week with the sixth period providing for laboratory experience. Class is scheduled for six periods per week with the sixth period providing for laboratory experience. About 50% of the course is a study of mechanics and the remaining 50% is a study of electricity and magnetism.

Living Environment:Science Regents Examinations:OSA:P

Students are expected to be independent readers and learners of the basic concepts related to this course. It is concerned with the fundamental structure, properties, and behavior of matter. This course is designed to have ample hands on laboratory experience with formal written reports due for each.

Science FAQ

At the conclusion of this class students should have a thorough understanding of what drives our daily weather and they will begin to understand and appreciate the scientific basis for weather and climate prediction.

Science Courses

Recommended Preparation: Physics R or H, Algebra 2 Accelerated. All the labs that I have as digital files will be posted here for you to download. The course will follow the New York State Regents Physics Core curriculum and it requires a superior understanding of mathematical concepts.

Science

Emphasis is on naming and reactions of hydrocarbons, aromatic compounds, alcohols, aldehydes, ketones, carboxylic acids, ethers, esters, and natural organic compounds.

NYS Higher Education Services Corporation

Students will take the Earth Science Regents Examination in June. Students are required to complete at least 1200 minutes of laboratory work and to submit acceptable written reports on laboratory problems in order to be eligible to take the State Regents Exam.
