## From Indo

You see Barnbrook values personal contact with the client and is deliberately not building a corporation with hundreds of employees where working conditions differ little from a factory.

## Verstovskii, Aleksei Nikolaevich

Etnograficheskoye obozrenie, N 1: 129—139. The edition of the French scholar J. Their work had nothing to do with his life experience and was created in the service of marketing - it was a commodity like everything else.
