Confronting Mitral Valve Prolapse Syndrome (Paperback)

Insert 3 drops of the remedy into the bottle and shake the bottle hard before you sip a capfull of the bottle or a large teaspoonful which is the dose.

CFSsupport

I have read your medical reports which you sent as attachments but it will be necessary that you state your case on my website as the precise data contained in your medical reports is not essential for purposes of prescribing for you condition.

Heart disease: Types, causes, and treatments

We found out his diagnosis at 18 weeks. Insert 3 drops of the remedy into the bottle and shake the bottle hard before you sip a capfull of the bottle or a large teaspoonful which is the dose.

Health Care & Medical Resources

The remedies you will use are: Arnica 30c in the Wet dose given twice daily. The walls of the muscle thicken, and contractions become harder.

A patient with MVP (Mitral Valve Prolapse) cured « Joe De Livera

Nat Phos 6x will help by accelerating the passage of food down the gut which will help in your cure.

What is the general progression of mitral valve disease in a young healthy adult?

Elly's Quipu Story As part of an advocacy project to show how long people have been sick with the related syndromes, I tried my hand at making

a quipu. Joe, You are a very inspiring person, not only for the way you have maintained your health, but the way you have continuously helped others through the abc forum and also your website, most people as they get older become inward looking, you have become outward looking and that's why you are 84 years young I think.
