## The Harvey Lectures delivered under the auspices of the Harvey Society of New York, Series 68

Changes in the Constitution may be made at any meeting of the Society by a majority vote of those present after previous notification of the members in writing. I will refer first to the general physiology of the blood.

## The Harvey Lectures: Delivered Under the Auspices of the Harvey Society of New York 9780266469391

When the operation is sufficient for mild diabetes, the food tolerance as ascertained after allowing a few weeks for recovery from trauma will generally hold good for a number of months on suitable diet.

## The Harvey lectures [electronic resource] : Series 102 : delivered under the auspices of the Harvey Society of New York, 2006

We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

## The Harvey Lectures: Delivered Under the Auspices of The Harvey Society of New York, 2006

The tables show some values incidentally observed in connection with other work. The further we investigate the more evident does it become that each physiological response depends on a vast number of conditions in the environment of the responding tissue. Bloor's highest figure after such injections is 1.

## The Harvey Lectures: Delivered Under the Auspices of the Harvey Society of New York, 1908

We can distinguish in a living organism what seems a more or less definite structure of bony matter and connective tissue. Neisser and Derlin's patient with 19.

## **Full text of Harvey**

It will be a simple matter to feed a variety of fats and compare with the blood-fat in the different cases; some information concerning fat assimilation may thus be gained, and we may be able to report such experiments later. Connstein claimed that the presence of red corpuscles is necessary in order for the fat to be changed from the emulsified to the soluble form.

## **The Harvey Lectures delivered under the auspices of the Harvey Society of New York, Series 68**

An example of this condition is given incidentally in the record of dog 356 Table V , with potentially severe diabetes. As in human cases, it is then unremitting, and like an old hyperglycemia, varies relatively little with meals.
