More information about the PRISM study is available at ClinicalTrials. Horvath has represented the STS to CMS, FDA, RUC, PEAC and Congress.

## List of NIH Institutes, Centers, and Offices

The NHLBI-funded Prevention and Treatment of Acute Lung Injury PETAL Network will begin work on prevention and early treatment of ARDS.

## Summer Internship In Biomedical Research

Study Physician, AstraZeneca 2013-2017 Assistant Professor, University of Miami, specializing in lymphoma and CLL 2015-2017 Assistant Clinical Investigator, NCI Developmental Therapeutics Branch, research focus on high-grade neuroendocrine tumors, including small cell lung cancers, bladder, prostate, pancreatic and non-small cell cancers that transform to high-grade neuroendocrine cancers 2014-2017 Assistant Professor, Department of Medicine, West Virginia University Cancer Institute 2014-2017 Assistant Professor, University of Washington Division of Medical Oncology and Fred Hutchinson Cancer Research Center 2016 Program Years Name of Alumni Where They Are Now 2013-2016 Inhye Ahn, M. NIH...Turning Discovery Into Health®.

## **NIH's TOPMed program publishes data on over 53,000 diverse genomes**

Of the estimated 70,000 to 100,000 people in the United States with sickle cell disease, most are thought to have African ancestry, although the gene also occurs among people from the Mediterranean and Middle East. A few years later, ground-breaking NCI physician researchers Gordon Zubrod, M. Most healthy adults can donate blood without experiencing any side effects.

### **NIH Clinical Center: Medicine for the Public**

I functioned as an acting investigator for multiple, early phase immunotherapy clinical trials under the mentorship and guidance of the internationally renowned cancer researchers.

#### **Full**

Representative images from hematoxylin-eosin sections from an endobronchial biopsy from E a subject with mild asthma and F a subject with severe asthma are demonstrated. Conclusions: It is intended that REDS-III serve as an impetus for more widespread recipient and linked donor-recipient research in the United States as well as to help assure a safe and available blood supply in the United States and in international locations.

### **NIH Clinical Center Search the Studies: Study Number, Study Title**

Volunteers donate all blood products used for transfusions performed in the United States to help people who are ill or injured, or who need blood for other reasons. Early Sickle Mortality Prevention Translational Stem Cell Biology Branch Stephan Cordes, M. I truly feel this is the ideal place to start a career in academic hematology-oncology, with mentors who are world leaders in oncology research.
