## Mitigating GHG Emissions in the Humid Tropics: Case Studies From the Alternatives to Slash

Agroforestry alternatives to slash and burn ASB agriculture at tropical forest margins were identified and the trade-offs between carbon sequestration and farmer profitability provided options to policy makers. Agricultural development with rainforest conservation: Methods for seeking best bet alternatives to slash-and-burn, with applications to Brazil and Indonesia. Tree-based systems at plot or landscape level can minimize conflicts between private and public interests in local environmental services, but spatial segregation of functions is an imperative for the core of global biodiversity values.

## Fallow management strategies and issues in Southeast Asia

Tropical forest diversity, environmental change and species augmentation: after the intermediate disturbance hypothesis. Alternatives to slash-and-burn in Indonesia.

## Delivering on the Promise of Agroforestry, Development and

How effective are different types of filters for intercepting flows? THE M OF INRM: RECOGNIZING AND SUPPORTING THE MANAGER  
The overall objective of INRM research and development activities is to help managers at various levels do a better job of managing natural resources.

## Conservation Ecology: Negotiation support models for integrated natural resource management in tropical forest margins

AARD - PIVOT Australia 1988 14 State of Land Resources Information System for Fertilizer Reccomendation Proceeding on FAO-Expose for Fertilizer Use Efficiency in Bangkok. Challenges to INRM research remain: how should the opportunities for adaptive response among diverse interest groups, at a number of hierarchical levels, be included in the assessment of impacts on the livelihoods of rural people? Farmers have

developed agroforests, based on rubber, resin, and other local or introduced trees, as sustainable and profitable alternatives to food-crop production based on slash-and-burn techniques.

### **Delivering on the Promise of Agroforestry, Development and**

In this article, we trace the evolution of the Erosion Control Funding Programme ECFP on the Ea. Soil nutrient capital is being replenished in subhumid tropical Africa through improved leguminous tree fallows, rock phosphate and biomass transfers of *Tithonia diversifolia*, helping farmers to attain food security.

### **Linking climate change research with food security and poverty reduction in the tropics**

Mas Deddy Erfandi 1 Dynamic of Tsunami-Affected Soil Properties Proceeding International Workshop 2008 Hidrologi and Soil Conservation 11 Dr. THE I OF INRM: INTEGRATE OR SPATIALLY SEGREGATE FUNCTIONS? JIRCAS 2000 17 The effect of dry-wet conditions to peat soil physical characteristics of different degree of decomposition Peatland for people natural resources function and sustainable management. The relative merit of integrated vs.

### **International Publications ICALRRD**

DESCRIPTION This study has served as a proof of concept for the application of the ecosystem serv.

### **International Publications ICALRRD**

Because there is indeed no substitute for spatial segregation of many endangered species and people, socially integrated mechanisms are needed for stabilizing boundaries of conservation areas.
