For example, a surface-to-surface ballistic missile is named after Ghauri, the Afghan invader who defeated and killed a Hindu prince and established the Delhi Sultanate in 1206.

### **Michael Franks (musician)**

In the first half of the sixteenth century, it was the Safavids who made the Timurid princes of Central Asia and India their clients, and styled themselves as the true successors of Timur.

### **Mughals**

He reinterpreted Islamic law and presented the Fatawa-e-Alamgiri. I never understood why anyone likes them, they have way too much too crust all around them.

The thread that connects the two is the underlying idea of sovereignty, of the ideal sovereign imbued with cosmic power—the insan-i kamil perfect man and the Renaissance magus. Sharing the Mughal syndrome, Sharif had a knack for building high-speed highways though most people cannot afford to buy even clunkers.
