Judge Learned Hand quite simply made a mistake with that comment. Many times in our discussions it is in exactly how you misunderstand Supreme Court cases than is where you r errors lie.

Inventions and Discoveries

But the necessity still would exist; and we may readily suppose that the idea was conceived, and lost, and reproduced, and dropped, and taken up again and again, until at last, the thought of dividing sounds into parts, and making a mark, not to represent a whole sound, but only a part of one, and then of combining these marks, not very many in number, upon the principles of permutation, so as to represent any and all of the whole twenty thousand words, and even any additional number was somehow conceived and pushed into practice.

Timeline of Everyday Inventions

Remember, patent rights run for a limited time and after that time everything covered by the patent is open to all freely. Invention is the act of producing a useful result using the principle.

Difference between Discovery and Invention

The idea, being once conceived, of riding one species of animals, would soon be extended to others. The precise period at which writing was invented, is not known; but it certainly was as early as the time of Moses; from which we may safely infer that it's inventors were very old fogies. Supreme Court brings into question if he should receive the sole credit for the radio invention.
