## Performance of major mechanized rainfed agricultural production in Sudan: Sorghum vulnerability and resilience to climate since 1970

Agriculture in the region includes dryland farming of cereal crops, such as wheat and barley Eklund et al , as well as irrigated cash crops, such as tobacco, cotton, and pistachio nuts Mourad and Berndtsson , Beaumont.

### Review: Understanding the Crisis in Sudan on JSTOR

Therefore, only control and support zones were used in this analysis, hereafter referred to as IS zones.

## Performance of major mechanized rainfed agricultural production in Sudan: Sorghum vulnerability and resilience to climate since 1970

The Békou Fund, the first multi-donor fund created by the European Union, finances PAPEUR. The following paper explores these issues in Sudan through a crop profitability analysis of gum and other crops combined with financial and economic analyses of six representative gum arabic production systems.

### Agricultural Residues for Future Energy Option in Sudan: An Analysis

Ploughing and manuring in Kheiran and terracing to control soil erosion in Liri, represent examples of how intensive cropping has been operated.  
In: Entwicklung und ländlicher Raum, Vol.

### Economic Growth and Development in Ethiopia

First, the emergence of agrarian institutions in the Central Luzon and Southern Tagalog regions in the Philippines represent disputes between

tenants and landlords.

### **Story: Agricultural entrepreneurship to lead socio**

It offers considerable flexibility of fuel supply due to the range and diversity of fuels that can be produced. Fifth International Farming Systems Association European Symposium. November 1996 in Colombo, Sri Lanka, pp.

### **THE FILIPINO MIND: Agrarian Reform**

Despite their vulnerability, local populations have little access to measures and practices that can increase their resilience in the face of climate change. However, the incentives for the intensive system have disappeared.
