The Oxford Handbook of Pragmatics

The chapters are organised in a systematic fashion, and span a wide range of theoretical research on how language communicates multiple meanings in context, how it influences our daily interactions and relationships with others, and how it helps construct our social worlds. Adjective meaning and scales, Stephanie Solt 17.

Handbook of Pragmatics

His main research interests are in pragmatics, semantics and syntax, especially the pragmatics—semantics interface and the pragmatics—syntax interface. Part I is concerned with schools of thought, foundations, and theories. It also includes chapters that explore selected linguistic theories and their philosophical implications, providing a much-needed interdisciplinary perspective.

Handbook of Pragmatics Blackwell Handbooks in Linguistics: me.stfw.info.cdn.cloudflare.net: Horn, Laurence, Ward, Gergory: Fremdsprachige Bücher

Pragmatics is the study of human communication: the choices speakers make to express their intended meaning and the kinds of inferences that hearers draw from an utterance in the context of its use. During this time, we have made some of our learning resources freely accessible. This volume brings together distinguished scholars from all over the world to present an authoritative, thorough, and yet accessible state-of-the-art survey of current issues in pragmatics.

Über den Autor und weitere Mitwirkende Laurence R.

Developmental and Clinical Pragmatics

He has also published a number of articles and reviews in leading international journals of linguistics. Chapters in Part I are concerned with schools of thought, foundations, and theories, while Part II deals with central topics in pragmatics, including implicature, presupposition, speech acts, deixis, reference, and context.
