5 Fun Science Experiments Kids Do at Home

Create an electromagnet What kids will learn about: electromagnetism Making an electromagnet is a middle school science-class staple, and it's an easy project to do with a few small items from a hardware store. Notice how the color reaches the leaves at the very tip of the stalk! Likely, the structure with two floors holds up just as well. The fuzz holds the soap mix like a paintbrush.

12 fun science experiments for kids you can do at home

Pour one type of juice into each glass.

Fun with Science: 27 Sensory Science Experiments for Kids

This also teaches some basic chemistry and uses materials you already have at home. Be it blowing soap bubbles or building towers of spaghetti, they are second only to seasoned engineers and CEOs at getting results.

Fun science experiments to try at home with the Van Andel Institute

Children can perform this experiment anywhere like schools classes, home, etc. Mix with a spoon at first. This experiment will help your child understand how various household liquids melt at different rates.
