In the book Lord of the Flies, by William Golding, a group of boys are stranded on an island far away, with no connections to the adult world. The progress in industrial, economic and social development will standstill without electricity. In 1960, Lowell moved to New York, where he was to live for the next 10 years; beginning in 1963 he commuted on a more or less regular basis to Harvard, where he taught intermittently until his death in 1977.

Science and Civilization English Essays

The ugly yarn which science has woven in the garments of human personality are not negligible. Machines have snatched away from us the calm of mind and peacefulness of our environment.

On 15 August when Prime Minister Narendra Modi gave a speech, he promised to electrify all unelectrified villages within 1000 days. Those who uphold the idea of progress as an ethical principle regard this unlimited and quasi-spontaneous process of change as a Good Thing, and as the basis on which they guarantee to future generations a Heaven on Earth. You need to develop style over time.
