### FSE Workshops & Conferences

First Post-Retrieval Symposium, part 3 Full Text URI Author eng Levine, Arlene S. This volume is a compilation of papers presented at the Third Long Duration Exposure Facility LDEF Post-Retrieval Symposium.

### First LDEF Post

. For Vote-by-Mail, Early Voting and Election Day information, please contact your local Supervisor of Elections Office.

### Technical Colloquia & Symposia

The experiments include materials, coatings, thermal systems, power and propulsion, science cosmic ray, interstellar gas, heavy ions, micrometeoroid, etc. For the case of 136 and 272 bins, the bins overlap; for the case of 68 bins, the bins are noncontiguous. And the fifth session addresses other subjects such as results of the LDEF life science and crystal growth experiments.

### Survey of Spaceborne Missions and Sensors

The nadir resolution is 0. The fourth session addresses studies of the effects of the space environments on spacecraft systems. The papers represent the preliminary data analysis of the 57 experiments flown on the LDEF.

### Technical Colloquia & Symposia

Abstract The LDE facility was designed to better understand the environments of space and the effects of prolonged exposure in these environments on future spacecraft.
