One of the archetypal myths of the Turkic nomads of central Asia who were the ancestors of the Ottomans was the fabulous legendary city of Kizil Elma, the Red Apple, which the tribesmen would one day capture and occupy. Then, have them choose which they believe are the most effective images and discuss why they work so well. In conclusion, without the development of the printing press, the Renaissance may never have happened.

## How has technology affected your life Free Essay Example

This raises the obvious question—how do we read it in the first place? This is happening because of the technological advancements, which is eventually due to the invention of computers. For example, sheep could be accounted independently of their actual location. But the most important technological advance of all was the development of printing, with movable metal type, about the mid-15th century in Germany.

## The Evolution of Writing

Ask the groups to present the product of this exercise the images they found most interesting to the class. It is certainly the case that a range of hostile and condescending images tended to be employed by the European colonial powers in the modern age to diminish those whose

countries they invaded and economies they dominated. Once again ask the students to share their writing.
