### Claude Monet

Morning on the Seine near Giverny Bain a la Grenouillere is a painting produced by Claude Monet in 1869.

### Claude Monet: Who Was He, and Why Is He Important?

During that time, Monet simply memorized where each color of paint was on his palette so he could continue to render breathtaking images. He put a Japanese footbridge across his pond, which he famously painted, and he water lilies from Egypt and South America. Despite criticism, the impressionists would produce six exhibitions until 1882.

### Claude Monet: Who Was He, and Why Is He Important?

The French painter had dreamed about this painting and with his friend Renoir painted this during summers.

### Claude Monet Paintings, Bio, Ideas

In 1883, Monet was looking for a house for Alice and their combined eight children. In the beach and sea pictures of 1865—67 Monet was plainly not trying to reproduce faithfully the scene before him as examined in detail but rather attempting to record on the spot the impression that relaxed, momentary vision might receive—what is seen rather than what is known, with all its vitality and movement. He became very famous in his community for his drawing.
