## Meal and snacking patterns of school

In a letter to Hugh Montgomerie, a Glasgow merchant, Robert Drummond reported that sickness and mortality continued to afflict the remnant of the colonists. The virus is used like a tiny engine to drive implanted genes to express themselves. There were 18 attendees including representatives from 3 participating farms.

## Darien scheme

For some schools, the program acted as a catalyst and driver for changes beyond the parameters of the program. Some men were sent ashore to rebuild the huts, which caused others to complain that they had come to join a settlement, not build one. In doing so, it enabled schools to identify solutions that were likely to be sustainable and pragmatic, aware of the complexities that operate for school communities with different funding models and the need for a shift from awareness to policy to outcomes.

## BBC NEWS

GM contributed to the design of the study and preparation of the manuscript.

## Infarm could supply more fruit and veg

Handmade in Scotland, the bunting comprises thirteen brightly coloured pennants which spell out the words 'Happy Birthday', and uses lettering that has been printed onto 100 per cent recycled card. Shortly after this experiment Lind retired from the Navy and at first practised privately as a doctor.

## Barrhead school breakfast scheme to be rolled out across the UK after success of Scottish pilot

Adolescent meal patterns: grazing habits in the west of Scotland.

## Pub that started selling fresh fruit and veg in pandemic decides to open up own shop due to demand

Principals and schools highly valued the approach as a catalyst for broader positive school changes. Conclusions: Children tended to follow a traditional pattern of three meals a day, which was consistent between age and BMI subgroups and between school term-time and holidays. Green, Madden and Simpson were subjected to derision and insults by the mob before they were hanged.

## **Fruit**

Height and weight were measured by trained fieldworkers and were used to calculate BMI. One of the biggest successes of this group has been in getting people together who work in different ways talking to each other, looking at soil and sharing knowledge and experience.
