**Fulfilling the Potential of Cancer Prevention and Early Detection : an American Cancer Society and Institute of Medicine Symposium (eBook, 2004) [me.stfw.info.cdn.cloudflare.net]**

The Board fully supports this NCI initiative and encourages NCI to collaborate with other private and public efforts to achieve success. The identification of increased risk may provide an opportunity for medical intervention to reduce risk, or heightened surveillance and early intervention as needed.

## Improved Strategies for Cancer Prevention and Early Detection

In general, the older you are, the more susceptible your skin is. In contrast, no significant change in self-reports of counseling for nutrition and diet modification was observed after an educational intervention that involved making patient education booklets available and participation in several grand rounds Madlon-Kay et al.

This is especially unfortunate insofar as racial, ethnic, and socioeconomic disparities in cancer mortality can often be traced to under-use of screening services. The Program will partner with professional soccer player Chris Wingert to educate Utahns through local parks and recreation youth soccer leagues in low income and underserved areas, as well as other counties in Utah with high melanoma incidence rates.

## Executive Summary

The effort was called the Prevention Curriculum Assistance Program PCAP and was funded by ATPM and the federal government's Health Resources and Services Administration HRSA. According to smoking cessation guidelines, multiple types of clinicians are effective and should be used.

## The 10 commandments of cancer prevention

The two most notable successes arising from this research are the approvals by the FDA of the drugs Nolvadex® and Evista® to reduce the risk of breast cancer in women at increased risk of the disease.

### **Cancer NSW: Bowel cancer screening kit saving lives, prevention**

Public and private health insurers and providers who want to improve the health of their beneficiaries should include in their benefit packages coverage for evidence-based interventions for cancer prevention and early detection.
