Statistical News, 121 Autumn 1998

Often, a collection of answers is a more accurate representation of how a group of people think, feel or act, than a handful of individual interviews. The most recent edition of this article was published on 15 September 2016.

Research and statistics

While comparable records for average weekly earnings start in 2000, modelled estimates of average weekly earnings in nominal terms back to 1963 which do not have National Statistics status are available at. The UK had the 11th-highest GERD as a percentage of GDP of all EU-28 countries, where the average was 2.

Statistical Journal of the IAOS

Teachers might like to use this example writing frame, written by Mohammed, 11, at George Spencer School, as an example. Tip: Students might find it easier to write the introduction at the end. You can watch the discussion for yourself Danny Langley is Head of User Insight and Engagement at ONS.

Statistical releases

Schools that have completed the School Report Survey will be sent their data to use in their reports for School Report News Day.
