Small MPEG Player by Michael Simmons, a good alternative for those who don't like the resource eating XING.

WinWorld: Windows 3.0 / 3.1 3.1

This will un-hide a number of settings for controlling the restriction of the public endpoint.

Getting Windows 3.1 connected to the internet (in DOSBox of course)

You'll have to remove that first.

Windows Installer 3.1 v2 (3.1.4000.2435) is available

This stepping stone lasted a little longer than they wanted, going through 95, 98 and finally ending with Windows ME. Working with multiple applications often meant leaving multiple overlapping program groups open, dragging and resizing windows to try to avoid covering the other program items you were using. Because it only supports the NetBeui protocol, it will not connect you to the Internet.
