SCHOOL AS A SOCIAL CULTURAL AND COMMUNITY INSTITUION

Instead of learning about something from watching a video or looking at a book students are immersed in the situation, able to use all their senses and form their own opinions through experience. Distributed Cognition Distributed cognition is a concept from sociocultural theory that explains how, if learning is social, then we can share our thinking! Learning Theories, A to Z. Exploring teacher effectiveness using hierarchical linear models: student- and classroom-level predictors and cross-year stability in elementary school reading.

The Importance Of Culture In Education

Journal of Cross-Cultural Psychology, 43, 3—14. Place based learning offers a way to explore this connection and make learning relevant.

Socio

The International Journal on Mathematics Education, 41 3 , 257—262. A good more knowledgeable other will slowly release control of the learning from the teacher to the student.

The socio

If a guest speaker is a family member the student benefits further from knowing their own heritage.

Making the Connection between Culture and Mathematics Northwestern University

Learning is influenced by Social Interactions This is the most important concept in the sociocultural theory of education: we learn through social interactions. Econometrica, 73 2 , 417—458. Journal of Creative Behavior, 33 2 , 112—125.
