List of Agreements

As said above, this system, however flawed, needs to be used so that the Navy can begin to learn how to use a UUV for its ISR and countermine missions, and from this real-world experience develop appropriate CONOPS.

Underwater Gliders

In 1992, the command was reorganized as the Naval Undersea Warfare Center, Division Newport.

About ROV

To remain clandestine, both navigation and communication functions must work undersea with minimal exposure at the surface. Where the establishment of a straight baseline in accordance with the method set forth in article 7 has the effect of enclosing as internal waters areas which had not previously been considered as such, a right of innocent passage as provided in this Convention shall exist in those waters. The coastal State may take the necessary steps in its territorial sea to prevent passage which is not innocent.
