Designing Coherent Education Policy : Improving the System Alan Boyd Knox

They must clarify standards for teachers seeking licenses and raise standards in areas where student outcomes are lowest. My full paper provides additional recommendations for states as they work to achieve greater coherence across programs in their state accountability system. Perkins V was signed into law in July 2017.

Designing Coherent Education Policy : Improving the System Alan Boyd Knox

After using a multifaceted process that included telephone surveys and consultations with large committees and citizen focus groups to identify goals, Kentucky used professional task forces to draft goals, learner outcomes, and curriculum frameworks.

Department of Education's Office of Educational Research.

Trauma

When it comes to objectively measuring the quality of the US education system, the news is disappointing. In emphasizing consensus, standards groups are trying to avoid the mistakes of past curricular reform projects that neglected the social and political realities of implementation McLaughlin 1991; Elmore 1993. While consistency is necessary to support coherence, what that means from a design perspective will vary depending on state-specific contextual factors and priorities.
