Learning Principles

Submitted additional data but cannot start any new programs until the issues with the U. The Teaching Professor, 6 9 , 5.

Motivating Students

In addition, special needs programs that use technology to enhance learning. An investigation into the types of turning points affecting relational change in student-faculty interactions. People bring different talents and styles of learning to college.

Law Enforcement Actions Against Predatory Colleges

They must be able to talk about what they are learning, write about it, relate it to past experiences, and apply it to their daily lives. Adapted from For Your Consideration, 3 3 , by The Teaching Professor, 8 2 , 3-4. As students bring this knowledge to bear in our classrooms, it influences how they filter and interpret what they are learning.

The Role of Technology in the Educational Process

The sample code includes: respect each other, criticize ideas instead of people, listen actively, seek to understand before being understood, contribute to group discussion, keep an open mind, share responsibility, and attend all meetings. You also may wish to reflect on your own frame of reference.
